

What's new?

Pro forma receipt

Now you will be able to print draft receipt of your bill with just one button tap. „Print Bill“ button is located in the menu above the bill.

It will contain all items that are in the bill at the moment.

WALLMOB

by

You will be able to see how many „pro forma receipts“ you have printed in the X-report and Z-report.

Bill comment

New possibility to add comment to the order. To add comment to the order, you will have to tap button „Add comment“. You can find this button in the menu above the bill.

WALLMOB

by

This comment will be printed on the "draft receipt" and on the order receipt.

Also it will be saved in the order, so you will be able to see it in BackOffice → Sales → Orders in POS and also in BackOffice order pdf.

WALLMOB

by

If you'd like to edit bill comment, just tap on the comment shown.

If you want to remove the comment from the bill, either tap on the "x" icon near the comment in the bill or tap "add comment" button in the menu above the bill.

WALLMOB

by

You will get a warning “Are you sure that you wish to close the window?”, then just tap “OK”.

Search for products in POS by product id

In addition to searching by product name and SKU, we added the possibility to search product by it's id. Also you will be able to search for the variant of the product by it's name, SKU or id in the “Item Browser View” POS search.

Flag set on product

A new flag "Print product receipt" is added to the product. This flag, for example, can be used to enable tickets to ferries, museums, events or print special information for certain products. If the product is sold has this flag set in Web BackOffice, a separate half cut receipt is printed for each individual product.

First, you have to set flag for the product in Web BackOffice → Inventory → Products → Tap on certain product:

The screenshot shows the product configuration interface for "iOS Cookies". The page is divided into several sections:
